Goals of the CEM Learning Programme

- Emphasis on practical knowledge
- Education programme first and a designation programme second
- Curricula must reflect the latest thinking in exhibitions and events management
- Maintain the highest standards for individuals who earn the CEM designation so they are recognised as knowledgeable and dedicated professionals with a long-term commitment to the exhibitions and events industry

Benefits of Becoming a CEM

Earning the CEM designation will make a significant difference in an individual's career in the exhibitions and events industry because it demonstrates career dedication, in-depth knowledge of exhibition management, and skill set expertise in the exhibition industry.

More than 2,300 active CEMs around the world make up the CEM Network which serves as a new channel for communication, ideas, thought leadership, industry recognition and promotion.

CEM Around the World

In its endeavour to expand the CEM Learning Programme to participants worldwide, IAEE and the CEM Commission have embarked on a system of partnership with licensees to share the marketing and conduct of CEM courses worldwide.

The CEM Learning Programme includes the following components:

- Eligibility requirements
- Certification examinations
- Recertification requirements
- Awarding of the CEM designation

The CEM Learning Programme is a global designation offered in:

Bahrain	India	Oman	Thailand

History of CEM Learning Programme

Organised in 1928 as the National Association of Exposition Managers to represent the interests of trade show and exposition managers, the International Association of Exhibitions and Events™ (IAEE) is today the leading association for the global exhibition industry. IAEE represents more than 9,000 individuals in over 50 countries who conduct and support exhibitions worldwide.

Established in 1975 by the IAEE Board of Directors as a voluntary certification programme, the CEM credential is recognised throughout the exhibitions and events industry as a means of raising professional standards. IAEE endorses and recognises industry professionals who have attained the CEM designation.

The CEM Learning Programme is a comprehensive course of study of specific and practical information within the exhibitions and events management arena. The programme is based on a Curriculum Blueprint that is composed of the essential concepts required of a competent professional in the study of Exhibitions and Events Management.

The CEM designation accommodates short- and long-term career goals with education that may be tailored to meet specific needs and interests. The CEM designation is obtained when a candidate completes a required number of courses offered in classroom and on-line formats.
